

BRAND GUIDELINES

Momentum.

The Smarter by 1 Degree identity, kept exactly as it is and given forward motion. The visual system, in one document.

Trust you can feel. Momentum you can see.

Smarter by 1 Degree already owns the credibility, accredited, advised, real degrees. Momentum keeps every ounce of that trust and adds the one thing the category never shows: forward motion. Navy holds the ground; azure carries the action.

Credible — accredited, advised, real.

Forward — always moving ahead.

Strategic — a planned path, not busywork.

Warm — for teens and families alike.

01 • THE LOGO

The mark stays the anchor

The logo is the anchor of trust, so it never changes. Give it clear space, keep contrast, and on dark or busy fields place the full-color mark on a clean white field.

- **Clear space**
Keep space equal to the cap height on every side.
- **Minimum size**
Icon ≥ 28 px; horizontal logo ≥ 120 px wide on screen.
- **Do**
Place on white, light neutrals, or a white field over color.
- **Don't**
Recolor, redraw, stretch, or set straight onto a photo.

02 • COLOR

Navy grounds it. Azure moves it.

Degree Navy • ~55%

Tinted neutrals • ~30%

Azure • ~10%

Azure passes AA for large UI and buttons with white text. For small body text on white, use Degree Navy or Warm Graphite, azure is a signal, not a paragraph color.

Pantone values are the closest spot-color matches, confirm against a physical Pantone guide before any print run. Use the coated (C) values for coated stock; ask for uncoated (U) equivalents if needed.

03 • TYPOGRAPHY

Archivo, with Hanken Grotesk

Archivo, a heavy grotesque that matches the wordmark, carries every headline and label. Hanken Grotesk is its warmer counterpart for body and interface text.

Aa

Subhead • 700

Advised every step of the way

Lead • Hanken 500

Mastery over busywork.

Body • Hanken 400

A real, accredited bachelor's, in less time and without the debt.

04 • THE MOMENTUM SYSTEM

Motion that means progress

Momentum is the brand's one rule made visible: every student is moving forward. Motion always travels ahead and always eases out, never bounces.

Progress, visible

Progress tracks fill navy-to-azure, left to right.

Forward cues

The azure arrow is the brand's gesture. It nudges ahead, never back.

Rules of motion

One language everywhere.

Duration **180ms** UI · **600ms**

reveals

Easing **cubic-bezier(.16,1,.3,1)**

Direction: left → right, up.

The whole system leans forward.

Arrows point ahead. Progress bars fill toward the goal. Reveals rise and settle. Nothing bounces, nothing drifts backward. If an element could suggest motion, it moves the same way the student does, forward.

05 • VOICE & TONE

Confident, warm, always forward

We speak to teenagers like capable adults and to parents like partners. Encouraging, never pushy. We sell momentum, not fear.

Work **smarter**. Get a **degree** ahead.

Say There's a better way to do high school.

Say A real, accredited degree, debt-free.

Say You're already moving. Let's go further.

Not Don't fall behind. (*fear-based*)

Not Revolutionary synergistic learning. (*jargon*)

06 • IN USE

The system, applied

Graduate a **degree** ahead.

Earn your diploma and an accredited bachelor's at the same time.
